

*You are invited to a
Frostig Speaker Series Event:*

How to Promote Autonomy and Self-Determination in Adolescents with Learning Differences

Frostig is pleased to host a presentation by esteemed experts Dr. Gwen Palafox, Dr. Diane Danis, Dr. Mitesh Parekh, and Dr.

Oren Boxer on "How to Promote Autonomy and Self-Determination in Adolescents." Issues concerning homework and medication management will be covered and there will be time for Q & A.

Adolescents with learning disabilities or neurodevelopmental disabilities will be the focus of the discussion. Parents and teachers will find the presentation especially helpful.

This is an extraordinary opportunity to hear from four highly regarded professionals with different but related specialties on the topic of promoting autonomy in adolescents. Dr. Palafox is a clinical psychologist, Dr. Danis is a developmental and behavioral pediatrician, Dr. Parekh is a child psychologist, and Dr. Boxer is a clinical neuropsychologist. Together they have over 40 years of experience assessing, educating and treating children with learning differences.

When

WEDNESDAY

May 13, 2015

From 7:00 pm to 9:00 pm

Where

The Frostig Center

GATES HALL

971 N. Altadena Drive
