

Insight Collective is pleased to announce a new speaker series designed for parents and educators. Each presentation will be hosted by a multidisciplinary panel of leading child development experts, including: clinical neuropsychologists, speech-language pathologists, a developmental pediatrician, clinical & developmental psychologists, educational therapists, behavioral analysts, and parenting specialists.

Developing Executive Functioning Skills **in Children and Adolescents**

The presentation will include information about the development of executive functioning skills, which are critical to academic success, as well as specific tools parents and educators can employ to support their children. A moderated Q & A will directly follow the presentation.

PRESENTED BY:

OREN BOXER, Ph.D.
Clinical Neuropsychologist

MATTHEW HAYUTIN, M.Ed.
Educational Therapist

Wednesday, November 18, 2015
